Tristel Clinell Wipes

- Can you please send a document detailing the material composition of the wipes in addition to the manufacturing process?
[This would need to be requested via the supplier \(see excel spreadsheet for supplier name\) and is not information NHS Supply Chain holds. Within the excel spreadsheet you will find our description of the items.](#)
- How many wipes do you estimate are required for the lifetime of a reusable P3 mask?
[NHS Supply Chain is unable to provide a response. Individual NHS trusts are best placed to answer this as there are many variables to consider such as how many wipes are used, levels of decontamination, how often that staff member is on duty etc](#)
- What is the average cost per wipe?
[See attached excel spreadsheet and the end column shows the average cost per wipe this has been taken from an average of the banded prices available.](#)
- Where are the wipes produced?
[This would need to be requested via the supplier \(see excel spreadsheet for supplier name\) and is not information NHS Supply Chain holds.](#)
- Where are the source materials obtained from?
[This would need to be requested via the supplier \(see excel spreadsheet for supplier name\) and is not information NHS Supply Chain holds.](#)

- Do you have a model of transportation emission?
NHS Supply Chain does not hold/record this information.

NHS Supply Chain does not hold/record this information.

As part of any internal review the handling of your information request will be reassessed by a member of SCCL staff who was not involved in providing you with this response. If you remain dissatisfied after this internal review, you will have a right of complaint to the Information Commissioner as established by section 50 of the Freedom of Information Act.
